

Answerer Books

Description

The Answerer was a series of seven books written by Victor Houteff. The first five were initially published in 1944, while Victor Houteff was still alive, while the last two were not published until after his death. The content of these books has proven to be exceptionally helpful to all who are studying the Davidian and Branch messages. We highly recommend reading the first section of *The Answerer*, Book No. 1 to obtain a glimpse into the import of these precious pages.
